## **DETAILED ACTION**

### ***Request for Continued Examination***

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 28, 2004 has been entered. An action on the RCE follows.

### ***Response to Amendment***

2. Applicant's amendment filed on January 28, 2004 has been received and entered in the case.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 – 5, 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 4, 14 and 15, the limitation “ordinary usage” is not defined by the specification, and the skilled artisan would not be reasonably apprised of the objective metes and bounds covered by the claims.

***Allowable Subject Matter***

5. Claim 13 is allowed (see previous Office action for details).

***Response to Arguments***

6. Applicant's arguments with respect to claims 1, 4, 14 and 15 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takahashi et al., Matsuda et al., Ju et al., Geffken et al., Eldridge et al., and Hatada disclose the alignment marks on the semiconductor device.
